Shafer Enterprises LLC of Stockbridge, GA manufactures personal cooling systems for surgeons, racecar drivers, MS Patients, industry, fireman and sports athletes.

The MS Cooling System includes an active cooling unit with a specially-designed comfortable MS vest with hood and a neck wrap. The lightweight nylon vest has over 50 feet of medical-grade capillary tubing stitched into the fabric which circulates cooled water. Included in the system is the cooling unit with internal pump, a 5 foot insulated hose, 110V adaptor and an auto cigarette lighter adaptor.

This lightweight, portable system utilizes ice & water and an internal pump, cools for 2-3 hours at a time and comes complete with a temperature control hose for individual comfort. The system is backed by a full 1 year warranty against defects in materials and workmanship. Factory Direct cost for the MS System is \$595.00. For more details call (800)345-3176 or visit us on the web at www.coolshirt.net
