Shafer Enterprises LLC
Stockbridge, Georgia USA

FOR IMMEDIATE RELEASE

*Shafer Enterprises LLC of Stockbridge, GA, government contractor and manufacturer of **COOL SHIRT® Personal Cooling Systems** announces the addition of the **COOL SHIRT® for Military Applications.***

Utilizing NASA-study guidelines, their temperature-controlled personal cooling systems utilize ice and water circulated through tubing stitched onto standard military issue t-shirts help soldiers maintain safe core body temperatures. reducing heat stress, heat fatigue and exhaustion. The systems are portable and available in single, dual and multi-user units. They can be used ongoing where applicable or as a remote cooling station for periodic cool downs. All systems can be powered by 12V battery or 110V adaptor.

COOL SHIRT® Personal Cooling Systems help keep soldiers cool and mentally alert, especially in armored vehicles, where heat fatigue frequently occurs. For more details call (800)345-3176 or visit them on the web at www.coolshirt.net
