COOL SHIRT from Shafer Enterprises: Call 1-800-345-3176 or visit online at www.coolshirt.net

SHAFER ENTERPRISES manufactures **COOL SHIRT™** & **COOL VEST™** systems for surgeons, racecar drivers, football players, multiple sclerosis patients, and industrial workers. Our personal cooling systems are designed to increase personal comfort and productivity while eliminating heat induced fatigue and the error factor that accompanies heat stress.

Football Cool Shirt

Designed for minimal care and maximum toughness, the football shirt from Cool Shirt is worn under the shoulder pads for total player comfort. No special care is necessary with Cool Shirt; made of 100% pre-shrunk durable cotton with over 45 feet of soft resilient medical tubing the shirt is machine washable, just put it with the rest of the uniforms. Sizes available S, M, L, XL, XXL, XXXL, XXXXL. Custom sizes also available.

Lightweight—only 3 oz of water

Quick Disconnect Hoses

Comes with independent controller valves, ensuring individual player comfort.

Hoses are available in 8, 10 & 12 foot lengths.

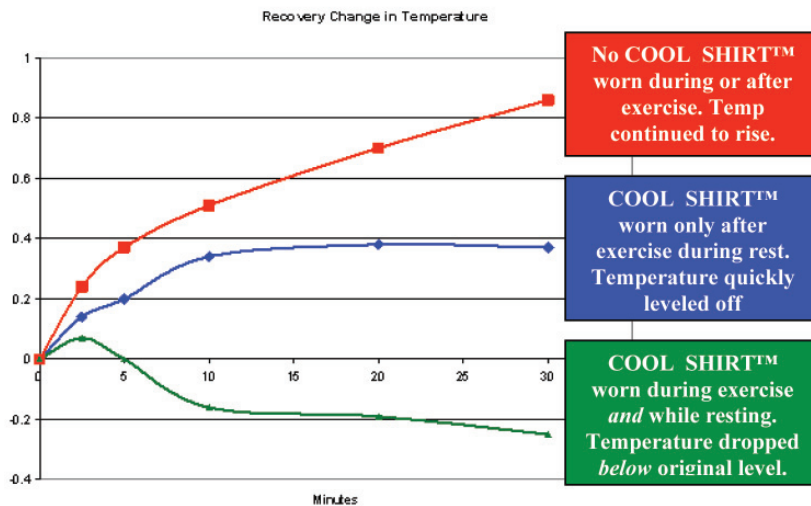

Multi-Cooler 15 Gallon System

The multi-system cooler pumps chilled water to Cool Shirt dropping body temperature reducing the risk of heat exhaustion and heat stroke.

The 15-gallon system handles up to six players. Quick connect hoses with independent controller valves and separate cooling zones ensure individual player comfort. Players enjoy cool comfort in seconds and remain hooked up to the cooler for as long as needed. Also available is an individual 12-quart system for personal use. Both systems will hook up to a 12-volt battery or a 110-adaptor plug (supplied).

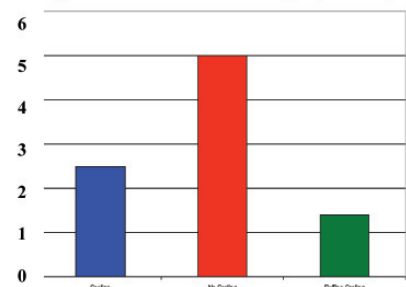

TESTING PROVES THE FOOTBALL COOL SHIRT™ WORKS

Independent testing results of three separate trials involving rigorous exercise.

Weight Loss In Each Trial (in pounds)

Heat exhaustion occurs when you lose **2% or more** of your total body weight due to fluid loss.
